

US 29

Date: 2021

Location: Silver Springs, MD

Advantage: Cost Savings

Technical Specifications

Fiber Reinforcement: FORTA-FI[®]

Application: Mill & Fill

Fibers Specified: Replaced Polymer

Overlay Thickness: 2"

Addition Method: Voyager

The resurface test of high-volume control vs. fiber covers a total of 7.24 miles across three lanes of north and southbound traffic. Using **FORTA-FI** fiber will **increase** the pavement's life cycle while **controlling cracking**.

*"The **Feeder System (FORTA Voyager)** makes adding the fiber a breeze and is much easier to work with than other feeders."
