

Penn State University Stadium Lot West

Date: 2014

Location: State College, PA

Advantage: Pavement Life

2023

Technical Specifications

Fiber Reinforcement: FORTA-FI[®]

Application: Wearing Course

Mix Formula: Dense Grade HMA

Total Project Size: 500 Ton

Thickness: 1 ½" over 4" Binder

Penn State University State College campus has been using **FORTA-FI** for over a decade. In the summer of 2014 one of their larger projects included the expansion of a 500-space parking area situated between Beaver Stadium and Bryce Jordan Center. A 1 ½" 9.5 mm wearing course of **FORTAfi[®]** asphalt was placed over 4" of binder.

UPDATE

After nine years and a crack seal treatment, this parking lot has remained **Stronger Lasting[™]** showing **minimal cracking and stresses**.
