

ROUTE MARIE VICTORIN - LAPRAIRIE, QC, CANADA

PROJECT DESCRIPTION

FORTA-FI was used to reinforce the asphalt in this 60 mm thick (14 mm nominal stone) base course mix with 4.7% of PG 64-28. The wearing course mix is 40 mm thick of EB 108 (10 mm nominal stone) with 5.2% of PG 70-28 that will be placed next year. This road contains 6,550 m² of fiber reinforced asphalt and is 10 meters wide. This is the first project containing FORTA-FI HMA done in this city.

KEY POINTS

- Extended Pavement Life
- Reduced Rutting & Raveling
- Reduced Cracking
